**Switching the MMI on and off**

The MMI switches on and off automatically with the ignition. It can also be switched on or off manually.

- **Switching on manually:** Press the On/Off knob briefly . Or: Press the **[MENU]** button or one of the buttons used to open a menu .

When the system is switched on, the last menu that was selected is displayed and the last audio source that was selected begins playing.

- **Switching off manually:** Press and hold the On/Off knob until the MMI switches off. If the MMI has been switched off manually, it does not switch on again automatically the next time the ignition is switched on.

The MMI can still be operated for approximately ten minutes after switching the ignition off. If you do not press any buttons or the control knob on the MMI control panel within this time, the MMI switches off automatically.

**Tips**

The MMI switches off automatically if the engine is not running and the battery is low.

**Adjusting the volume**

The volume of an audio source or a system message (for example, from the voice recognition system) can be adjusted directly while the sound is playing using the On/Off knob.

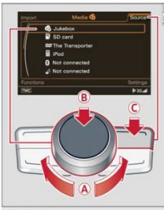

- **Increasing or decreasing the volume:** Turn the On/Off knob to the right or left.
- **Muting or pausing:** Press the On/Off knob briefly. Or: Turn the On/Off knob to the left.
- **Unmuting or resuming:** Press the On/Off knob briefly. Or: Turn the On/Off knob to the right.

**Tips**

Volumes that are too high or too low are automatically adjusted to a set level when the MMI is switched on.

**Operating**

You can easily access functions in the MMI using an intuitive and standardized operating process.

**Fig. 2 Operation**

**Selecting and confirming a function**

- **Selecting a function:** Turn the control knob to the desired function.
- **Confirming a selection:** Press the control knob.

**Accessing functions in a corner of the display**

- Press the control button that corresponds to that corner of the display. For example, the upper right control button corresponds to the upper right corner of the display.

**Opening the main menu**

- Press the **[MENU]** button . The MMI menu (such as Radio) is displayed. ▶
