#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

INSTRUCTIONS

- 23 Set your desired portfolio return
- 24 Start the Excel Solver and
 - 25 i) Minimize the Portfolio Variance
 - 26 ii) Change "By changing variable cells" to the range of cells containing the Portfolio Allocation
 - 27 iii) Set the constraints (the total portfolio allocation must add up to one, and the portfolio return should be the desired value)
 - 28 iv) Click Solve. You should now find that your Portfolio Allocation has changed.
- 29 NOTE: You may need to enable Solver through the File > Options > Add-Ins > Manage menu
